

SOUTHERN ELECTRICITY SUPPLY COMPANY OF ORISSA LIMITED

CONSUMER RIGHTS STATEMENT

- A. RIGHT TO INFORMATION
- B. RIGHT TO STANDARD OF PERFORMANCE
- C. RIGHT TO SEEK REDRESSAL
- D. RIGHT TO CONSUMER EDUCATION

- E. ENFORCEMENT

A. RIGHT TO INFORMATION

The consumer has a right to know:

i. Each utility should be required to maintain a fully informed bi-lingual website containing details of organization structure, activities, infrastructure and facilities for the consumers. The annual financial statement of the organization and tariff applicable as per Commission order are public documents and may be placed on the site. List of Bill Collection Centres with addresses/contact numbers of concerned officer in-charge of complaint redressal for each Section/Sub-Division/Division, Schedule and compensation for Minimum Standards of Performance and important documents should be placed on the site.

ii. Entry into consumer's premises:

Consumers have a right to be informed by written notice/notice pasted on consumer's premises prior to the entry into their premises by the Licensee for any prescribed purpose.

Identity cards should be carried by all employees or authorized person of the Utilities during service on entry into consumer premises.

iii. Notice of outages:

The Licensee shall provide not less than twenty four hours notice through publication in local print or audio visual media or by public address system prior to an outage exceeding thirty minutes scheduled for the purpose of testing or any other purpose connected with the efficient working of the system.

iv. Information prior to the disconnection and procedure of reconnection:

The Licensee must follow the OERC (Licensees' Standards of Performance) Regulations, 2004. The consumer shall be provided by written notice/notice pasted on consumer's premises with prescribed minimum period of notice before disconnection.

Before disconnecting the service, licensee's employee performing the disconnection must inform in writing reasons for disconnection and take the signature of an adult residing in the premises. If the proof of full payment is produced to the satisfaction of the Licensee's employee deputed for disconnection, he shall not disconnect it. If there is no adult, the employee shall deliver a note which contains information as to reason for disconnection and how reconnection can be obtained.

The Licensee is exempted from the notice requirements of the above Regulation only in cases where consumer's installation poses a danger to the health or safety of the consumers or Licensee's employees or the public. An intimation to the local Assistant Electrical Inspector should be given.

Proof of service of notice for disconnection should be maintained with the utility failing which penal action may be instituted.

The Licensee will restore service promptly when the cause of the disconnection has been removed by the consumers.

v. Procedure for providing new connection:

The new connections are provided following the procedures as prescribed in OERC Distribution (Conditions of Supply) Code, 2004 and OERC (Licensees' Standards of Performance) Regulations, 2004. For getting this service from the licensee, the potential consumers must follow the correct procedure. All intending consumers are eligible for supply of electricity within the prescribed time and on fulfillment of other official formalities, if feasible. An application complete in all respects will be taken to have been received 7 days from date of posting by registered post with AD. The applicant does have the right to be informed in writing about the reasons for rejection, personal hearing, and appeal and for removal of deficiencies in application for new connection as per the Complaint Handling Procedure.

vi. Meter:

The licensee has the responsibility to provide standard ^{and defect fee} meters unless the consumer opts to have his own meter. If the consumer opts in writing for the licensee's meter and the same is not supplied within specified time, it will be deemed to be a delay in new connection and will be eligible for penalty as per regulation. It should be periodically inspected by the licensee and entered into the meter card with the signature of an adult residing in the consumer's premises and expeditiously replaced/repared whenever the meter is found defective/or the same is intimated to the licensee by the consumer in writing. The consumer has the right to know the correctness of his meter.
